

# Muhammad Faizan Hameed *Software Engineer*

✉ faizan.ishtiaq9@gmail.com

☎ 03347922505

📍 Bahawalnagar, Pakistan

I have been a good student throughout my career. That's why I chose to alter the course of my career and appeared in the Competitive examination twice. Due to this reason I couldn't continue my journey as a software developer. Now I am very much excited to continue from where I left off. Currently, I am doing a remote internship in MERN stack development. I am looking forward to get a chance to learn and grow through consistent learning and the guidance of those who are ahead of me in this journey.
